PROFESSIONAL SUMMARY

Backend Software Engineer with 3+ years of experience building Java and Spring Boot microservices and banking integrations at Oracle Financial Services Software. Hands-on experience with orchestration services, Apache Camel routes, Conductor workflows, Spring Cloud Gateway, DevOps, Kubernetes, and API performance optimization.

PROFESSIONAL EXPERIENCE

Oracle Financial Services Software (OFSS) Pune, India

Staff Consultant - Java Backend Development Oct 2026 - Present

Associate Consultant Aug 2023 - Sep 2026

- Developed orchestration services in Oracle Banking Routing Hub (OBRH) for HDFC Bank using Java, Spring, and Spring Boot to coordinate banking API workflows.
- Built Apache Camel routes and Conductor workflows to integrate backend services; used Spring Cloud Gateway to route API requests.
- Migrated 500+ REST/SOAP services to a Spring Boot integration layer, simplifying deployment.
- Optimized caching and database queries, reducing API response times by 75%.
- Implemented ELK Stack monitoring and alerting, reducing production debugging effort by 80%.
- Containerized applications with Docker and deployed them on Kubernetes (OLCNE) as part of DevOps and CI/CD delivery.
- Built a Model Context Protocol (MCP) server proof of concept to expose internal banking APIs as tools.
- Delivered OBRH releases with zero production defects and mentored junior engineers on Git workflows, Agile practices, and CI/CD.

Cybersecurist | Cybersecurity Technology Intern Jan 2023 - Jun 2023

- Audited 15+ enterprise applications using OWASP methodologies and identified critical vulnerabilities.
