PROFESSIONAL SUMMARY

Java backend engineer with 3+ years of experience at Oracle Financial Services Software, building Spring Boot microservices and banking integrations. Experienced in API orchestration, Apache Camel routes, Conductor workflows, service migration, performance optimization, monitoring, and containerized delivery.

TECHNICAL SKILLS

Languages: Java, Python, JavaScript, Shell scripting
Frameworks: Spring, Spring Boot, Spring Cloud Gateway, Spring Security, Hibernate
Integration: Apache Camel, Conductor, Apache Kafka, REST APIs, SOAP APIs, Microservices
Databases: Oracle Database, MySQL, SQL Server, MongoDB
Cloud and DevOps: Docker, Kubernetes, OLCNE, AWS, Jenkins, Argo CD, Helm, CI/CD
Tools and Monitoring: Git, Linux, ELK Stack, Prometheus, Grafana, OpenTelemetry, Postman, JMeter

PROFESSIONAL EXPERIENCE

Oracle Financial Services Software (OFSS) | Pune, India

Staff Consultant - Java Backend Development | Oct 2026 - Present
Associate Consultant | Aug 2023 - Sep 2026
Selected contributions across Oracle roles:

- Developed Oracle Banking Routing Hub (OBRH) orchestration services for HDFC Bank using Java, Spring, and Spring Boot to coordinate banking API workflows.
- Built Apache Camel routes and Conductor workflows for backend integration; routed requests with Spring Cloud Gateway.
- Migrated 500+ REST and SOAP services to a Spring Boot integration layer, simplifying deployment.
- Optimized caching and database queries, reducing API response times by 75%.
- Implemented ELK Stack monitoring and alerting, reducing production debugging effort by 80%.
- Containerized applications with Docker and deployed them on Kubernetes using Oracle Cloud Native Environment (OLCNE) and CI/CD.
- Built a Model Context Protocol (MCP) server proof of concept to expose internal banking APIs as tools.
- Delivered OBRH releases with zero production defects; mentored junior engineers on Git workflows, Agile practices, and CI/CD.

Cybersecurist

Cybersecurity Technology Intern | Jan 2023 - Jun 2023

- Audited 15+ enterprise applications using OWASP methodologies and identified critical vulnerabilities.

PROJECTS

CricFreaks Tournament Scheduler | Java, Spring Boot, MySQL

- Built an automated fixture generation engine for 50+ teams using optimized batch processing.

Railway Reservation System | ASP.NET, C#, SQL Server, JavaScript

- Built a booking platform with real-time payments, supporting 100+ concurrent transactions with response times under 200 ms.

EDUCATION

Master of Computer Applications (MCA) | 2021 - 2023
MIT School of Science, Pune | CGPA: 9.75/10 | Scholarship: INR 3,00,000

Bachelor of Science in Computer Science | 2018 - 2021
Modern College of Arts, Science & Commerce, SPPU | 86.73%

AWARDS, ACHIEVEMENTS AND TRAINING

Oracle FSGIU Pacesetter Spark Award (2026) | Bronze Medalist, 3rd Rank in MCA
TechGig Code Gladiators Finalist (Top 2%) | CodeChef rating: 1650 | 300+ data structures and algorithms (DSA) problems solved
Training and Courses: AWS Cloud Practitioner Essentials | AI For Everyone | Python Programming (edX)
